Career Objective

I build user friendly, responsive websites with a focus on smooth performance. I have hands on experience in web development and am skilled in React.js, Bootstrap, Node.js, Express, MongoDB, and MySQL. I'm looking for a role where I can apply my knowledge and gain real project experience.

Technical Skills

Frontend :   HTML, CSS, JavaScript, jQuery, Bootstrap, ReactJS
Backend :   Node.js, Express.js
Database :   MySQL, MongoDB
Tools :   Git, GitHub, VS Code, MongoDB Compass, Canva, Excel, Google Sheets, Word

Project

Programmer's Hub - Q&A Web Application

- Like a developer focused platform using the MERN stack, allowing users to sign up, log in, post questions, and answer others. Created RESTful APIs for users, questions, and answers with Node.js, Express, and MongoDB, implementing JWT based authentication and bcrypt for password hashing.

- Designed a dynamic React frontend with features like question search, post and comment views, and protected routes based on user authentication.

Student Management System (CRUD Operation with React and Node)

- Developed a Student Management System with React.js for frontend and Node.js with Express & MongoDB for backend, implementing basic CRUD operations to manage student details such as name, age, course, and marks.

- Integrated features for adding, viewing, editing, deleting, and Added search functionality to find students by name or course and using Axios for API calls and React Router for navigation.

Portfolio Website

- Created a personal portfolio website to display projects, skills, and achievements with a clean, responsive design.Built interactive UI elements and improved user experience using HTML, CSS, Bootstrap, and JavaScript.

Experience

MERN Stack (Intern)   **Mar 2025 — Apr 2025**
Smik Systems (OPC) Pvt Ltd, Coimbatore

- Completed a one month internship that focused on MERN stack development. Created a Q&A website included user authentication, question posting, answering, and commenting. Gained practical experience with tools like MongoDB Compass and Postman for testing and managing APIs.

- Prepared technical documentation covering the website's features, architecture, and development process.

Additional Experience

Worked in a manufacturing company for nearly two years, handling responsibilities as a Team Leader. Got strong skills in time management, team coordination, and leadership. Gained hands on experience in decision making, problem solving, and managing teams in a fast paced environment.Also had experience using Google Sheets for tracking data and managing team related records.

Certifications

MERN Full Stack Developer Internship, Smik Systems (OPC) Pvt Ltd, Coimbatore   **Mar 2025 — Apr 2025**
MERN Full Stack Developer Course, Yuva Sakthi Academy, Coimbatore   **Oct 2024 — Mar 2025**

Education

Bachelor of Science in Mathematics, Yadava College of Arts and Science, Madurai   **2018 — 2021**
HSC & SSLC, Government higher secondary school, Veeracholan   **2015 — 2018**
